

# COLUMN SHUTTERING LINE

## MEDIUM FORMWORK LINE

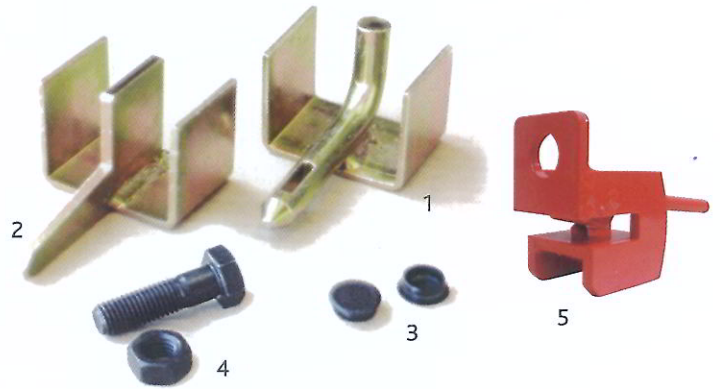

This kind of formwork is the perfect solution for the construction of big size columns.

It is easy to assembly and it doesn't need any accessory. The closing system is incorporated to the plate avoiding the wedge and bolt loss.

The height of these plates is adjustable allowing the building of columns from 25x25 cm. to 70x80 cm. (always multiple of 5).

### ACCESORIES

- 1.- Bolt
- 2.- Wedge
- 3.- Plastic stopper Ø18 mm
- 4.- Screw with nut M-14x30
- 5.- Elevation clamp
